EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In line 9 of paragraph [0006] "rear" has been changed to - - reverse - -.

In line 2 of claim 3 "lead" has been changed to - - load - -.

The following changes to the drawings have been approved by the examiner:

In Figure 1 the transmission should be indicated as "50" rather than - -52 - -.

In Figure 2 the inner race of the one-way clutch should be designated "12" and the engagement members should be designated "24" (see paragraph [0016], lines 5-6).

Photocopies of the two sheets of drawings showing the approved changes accompany this action.

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Claims 1-5 are allowed.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art cited by applicant in the Information Disclosure Statement filed on October 27, 2003 has been considered. The examiner further cites Haraiwa '348, Sherman '656, Pierce '011, Beim et al. '909, Coffey '102, Kimura et al. '104 and Martin '941, each of which disclose planetary gear transmissions including a friction clutch and one-way clutch.

The following is an examiner's statement of reasons for allowance: None of the prior art of record shows or suggests a method of controlling a transmission having the gear set, friction clutch and one-way clutch arranged in the manner set forth in claim 1 including the steps of selecting a low gear ratio, actuating the friction clutch, providing torque to the sun gear, maintaining activation of the clutch until the peak torque transmitted through the gear set has been reached, and reducing the load capacity of the friction clutch while the transmission is still in low gear so that the one-way clutch acts as the sole holding device on the ring gear.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Richard M. Lorence whose telephone number is (703) 308-3062. The examiner can normally be reached on Mondays through Fridays from 9:00AM to 5:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Charles A. Marmor can be reached on (703) 308-0830. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
